**Letter of Endorsement – Dr. Rajesh Maniar (Breach Candy Hospital Trust)**

To Whomsoever It May Concern

This is to confirm that **Somya Jain,** a High School student of the International Baccalaureate Diploma Programme (IBDP) at Dhirubhai Ambani International School, Mumbai, undertook a two week observership under Dr Rajesh N Maniar, an experienced **orthopaedic surgeon.**

Exclusively practicing joint replacement for 30 years with 8,000+ procedures, Dr. Maniar is recognized worldwide for complex joints and revision surgeries of the hip, knee, shoulder and elbow. He is the member of The American Knee Society; Co-founder and Board member of the Indian Society of Hip and Knee Surgeons.

As part of her observership, Somya studied various patient cases with osteoporosis, understood how X-Rays and CT-Scan are used to evaluate fragile fractures and prepared a report on **'Osteoporotic Fractures in Geriatrics patients in India'**. Her active engagement with our team highlighted her curiosity to learn about the metabolic bone health management in patients. Somya also gained insight into post-operative pain management for faster recovery and early mobilization.

We trust that this experience will support her academic growth.

Sincerely,

For **Dr Rajesh N. Maniar**

Joint Replacement Surgeon
