Sapna

TO WHOMSOEVER IT MAY CONCERN

03/10/2026

This is to acknowledge and appreciate the initiative undertaken by Ms. Somya Jain, a high school student at Dhirubhai Ambani International School, Mumbai, in designing and developing a set of activity worksheets for senior citizens.

Somya took the initiative to create these worksheets with the aim of providing our elderly residents with interesting, engaging and meaningful activities that they can enjoy as part of their daily routine. The worksheets were thoughtfully designed keeping the interests and comfort of senior citizens in mind.

We are pleased to share that NGO SAPNA has started using these worksheets at our shelter homes, giving our residents an opportunity to participate in simple and enjoyable activities.

We appreciate Somya's creativity, initiative, empathy and willingness to contribute to the community. It is encouraging to see a student take an academic idea beyond the classroom and develop something that can be practically used to bring engagement and positivity to the lives of senior citizens.

We sincerely thank Somya for choosing to collaborate with NGO SAPNA and wish her continued success in her academic and future endeavours.

Warm regards,
